

Investment Consulting for Pension Funds

LCP Asalis: the Investment Consultants for Swiss pension funds

How can you take advantage of working with

Network

- Through your adviser, you can make use of the know-how provided by the 20 certified Swiss pension fund experts of LCP Libera and the 40 investment specialists of Lane Clark & Peacock (LCP).
- We will start our Asset-Liability Management analysis with a comprehensive review of your pension fund's liabilities. Upon your request, we can also conduct a dynamic projection of the liabilities. In this case, we will measure the funding requirements of your institution using highly sophisticated tools.
- We will determine an investment strategy which takes your needs into account and seeks to stabilize your pension fund's financial situation in the long run.
- We are able to select the best portfolio manager within each asset class through our international network.
- We develop proprietary and interactive products and services in the areas of investment organisation and investment monitoring.

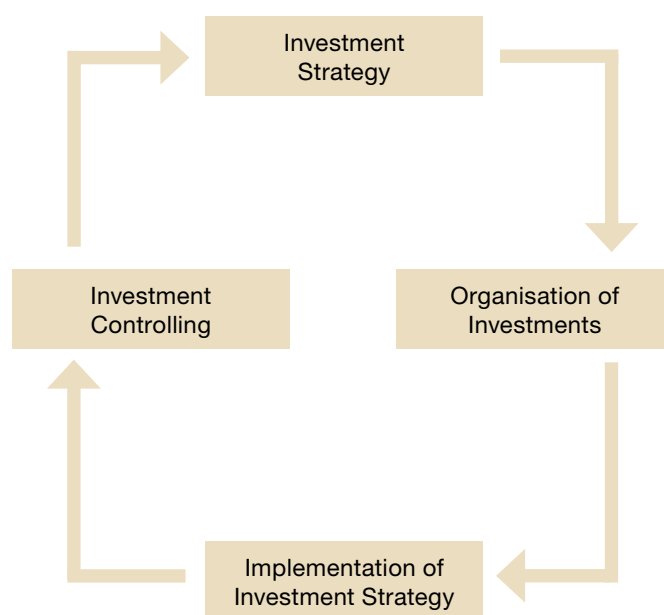

LCP Asalis is a Swiss investment consultant which assists pension funds through the entire investment process.

We are independent of financial institutions, we have our own approach to consulting and we offer high quality services. Our clients have access to a national and international network of investment and liability specialists.

us?

Consulting

- You receive objective advice that only considers your interests, as LCP Asalis is independent of financial institutions.
- Working with us is easy and uncomplicated: you have a single contact for the entire investment process.
- You benefit from top quality advice because our consultants are highly qualified and experienced professionals.
- As we use proprietary and interactive tools, you receive the results of our analysis faster.
- You can choose your preferred language: English, German, or French.
